Your memo and Flora Frame's (very nice) mailing in same mail. Hope you do well at it.

CUTLER DESIGNS I'm not certain of what you intend in your plotplan but I wish you'd taken it up with me. I have the official plans for all the utilities of Lesley Plaza, before and after it was rebuilt, with all the sewers and storm drains, all the dimensions, inlets, etc. I just mailed perhaps a

dozen sheets of them to Jillian Castellano. You may borrow them when she returns them, if you'd like. I also have Ray's large chart locating the witnesses that I just loaned to a guy in Canada...Why did you not notice the patch in the street on p. 248 of WWII. It was there by 12/5/64, when that picture was taken. It doesn't show now because the entire street has been repaved. A guy who was there while the resurfacing was in progress promised me the pictures he took then but he has not delivered yet. I think it is a mistake to focus on that one inlet. The valid point about the sewers is that there was no investigation of the possibility of their use, not the insistence that they were used. Garrison jumped the gun on my material without discussing it with me and I believe misused it. The really exciting one in atop the grassy knoll where the curved concrete rail, of th Underpass joing the stockade fence. It is behing the s fence near the sharp angle in it, under the steam pipe. I have exciting pix of that. It is also consistent with all front rt trajectories, and what a perfect pill box, 6 ft deep, 3 ft sq, and hidden from everyone! Please do come here, If you do not mind less than royal accomodations, stay with us. Otherwise, good motel nearby. Unless Jim asks me to go down and help again, I do not expect to be there before the trial. Have to go NYC 3/4-5. Health okay but beyond fatigue. Fifth book finished 5 months ago but dont dare added debt

Harold:
since I went to Miami, Dallas and New Orleans lots has happened and I'm now on lecture availibility and the enclosed is the result of my having been to Dallas and not being able to get a print of the SS plan - my only info is in WWII - anyway I'd be interested in you reaction and we're off for a week to Nassau and when I get back I'd like to come to Frederick for a night or if you're inthese parts come here - but it would seem that you'll only be in New Orleans until well into the summer -- if you have a minute please reply and I'd like to catch up a bit with you and have some advice on how any lecture should go -- I trust your health is holding up despite the schedule(or lackof it) Penn has purchased the Hearings for me and perhaps when they come I'll be able to do more with the plotplans --
